Contents

VOLUME 38 NUMBER 1

1 *X. B. Yang and S. M. Zeng.* Effect of yellow rust on yield components of winter wheat in China

9 *F. M. Dewey, C. J. Munday and C. M. Brasier.* Monoclonal antibodies to specific components of the Dutch elm disease pathogen *Ophiostoma ulmi*

21 *K. A. Gott, R. B. Maude and T. H. Thomas.* Fungitoxicity of plant growth regulators (PGRs) and PGR/fungicide mixtures in soak treatments to *Septoria apiicola* pycnidiospores

26 *V. W. L. Jordan, G. R. Stinchcombe and J. A. Hutcheon.* Fungicide and nitrogen applications in relation to the improvement of disease control and yield in winter barley

35 *M. W. Shaw and D. J. Royle.* Airborne inoculum as a major source of *Septoria tritici* (*Mycosphaerella graminicola*) infections in winter wheat crops in the UK

44 *M. W. Shaw.* A model of the evolution of polygenically controlled fungicide resistance

56 *P. J. Walklate.* Vertical dispersal of plant pathogens by splashing. Part I: the theoretical relationship between rainfall and upward rain splash

64 *P. J. Walklate, H. A. McCartney and B. D. L. Fitt.* Vertical dispersal of plant pathogens by splashing. Part II: experimental study of the relationship between raindrop size and the maximum splash height

71 *A. C. Newton.* Somatic recombination in *Rhynchosporium secalis*

75 *J. S. W. Dickens and R. T. A. Cook. Glomerella cingulata* on camellia

86 *T. Katan, Y. Elad and H. Yunis.* Resistance to diethofencarb (NPC) in benomyl-resistant field isolates of *Botrytis cinerea*

93 *S. C. Gregory. Armillaria* species in northern Britain

New or unusual records

98 *M. N. Sisterna.* Two new species of *Bipolaris*

101 *R. J. Cook and D. J. Yarham.* Occurrence of tan spot of wheat caused by *Pyrenophora tritici-repentis* on wheat in England and Wales in 1987

103 *C. Hall and D. R. Humphreys-Jones. Peronospora* on *Phygelius aequalis* compared with *Peronospora sordida* and *Peronospora verbasci*

111 *A. D. Avgelis and N. Katis.* Occurrence of squash mosaic virus in melons in Greece

114 *S. A. Hill and L. Torrance.* Rhizomania disease of sugar beet in England

123 Book Reviews

VOLUME 38 NUMBER 2

130 **New Honorary Member of the British Society for Plant Pathology.** J. M. Hirst, DSC, FRS

132 **British Society for Plant Pathology Presidential Address 1988.** J. T. Fletcher. Advisory plant pathology—challenges and opportunities

Letter to the editor

144 *J. E. Vanderplank.* A paradox as an aid to understanding host–pathogen specificity

Review

146 *J. d'A. Hughes.* Strawberry June yellows—a review

161 *J. M. Duncan and D. M. Kennedy.* The effect of waterlogging on *Phytophthora* root rot of red raspberry

169 *E. A. B. Aitkin, H. J. Newbury and J. A. Callow.* Races of rust (*Puccinia antirrhini*) of *Antirrhinum majus* and the inheritance of host resistance

176 *Q. Liu, S. R. Rimmer and R. Scarth.* Histopathology of compatibility and incompatibility between oilseed rape and *Albugo candida*

183 *E. Tanne, L. Naveh and I. Sela.* Serological and molecular evidence for the complexity of the leafroll disease of grapevine

190 *S. G. Southerton and B. J. Deverall.* Histological studies of the expression of the *Lr9*, *Lr20* and *Lr28* alleles for resistance to leaf rust in wheat

200 *R. F. Park and R. G. Rees.* Expression of adult plant resistance and its effect on the development of *Puccinia striiformis* f.sp. *tritici* in some Australian wheat cultivars

209 *M. L. Edwards, S. E. Kelley, M. K. Arnold and J. I. Cooper.* Properties of a hordeivirus from *Anthoxanthum odoratum*

219 *P. Darby, J. R. Godwin and J. W. Mansfield.* The assessment of partial resistance to powdery mildew disease in hops

226 *M. F. Batista, J. F. Antoniw, A. G. Swaby, P. Jones and M. J. Adams.* RNA/cDNA hybridization studies of UK isolates of barley yellow mosaic virus

230 *C. J. Williamson and P. E. Dyce.* The effect of calcium cyanamide on the reaction of swede cultivars to populations of *Plasmodiophora brassicae*

239 *P. D. Bridge, D. L. Hawksworth, D. F. Kavishe and P. A. Farnell.* A revision of the species concept in *Sarocladium*, the causal agent of sheath-rot in rice and bamboo blight, based on biochemical and morphometric analyses

246 *M. R. Thomas, R. J. Cook and J. E. King.* Factors affecting development of *Septoria tritici* in winter wheat and its effect on yield

258 *N. K. B. Adikaram, Y. Abhayawardhane, B. M. Ratnayake Bandara, A. A. Leslie Gunatilaka and E. M. Kithsiri Wijeratne.* Antifungal activity, acid and sugar content in the wood apple (*Limonia acidissima*) and their relation to fungal development

266 *P. R. Pritchard, P. S. Rowe and S. Rossall.* A comparison of infection of resistant and susceptible lines of field bean (*Vicia faba*) by *Ascochyta fabae*

271 *D. Kadish and Y. Cohen.* Population dynamics of metalaxyl-sensitive and metalaxyl-resistant isolates of *Phytophthora infestans* in untreated crops of potato

277 *G. C. Papavizas and J. A. Lewis.* Effect of *Gliocladium* and *Trichoderma* on damping-off and blight of snapbean caused by *Sclerotium rolfsii* in the greenhouse

New or unusual records

287 *D. L. Tomlinson and M. Mogistein.* Occurrence of bacterial wilt of peanut (*Arachis hypogaea*) caused by *Pseudomonas solanacearum* and opportunistic infection of aibika (*Abelmoschus manihot*) in Papua New Guinea

290 *P. Lakshmanan and S. Mohan.* Twig and stem blight of cotton caused by *Botryodiplodia theobromae*

293 *N. Z. Radziah and K. H. Chee.* A new foliar disease of rubber

297 *D. M. Wright, J. T. Fletcher and G. M. McPherson.* Detection of beet yellow stunt virus in England

300 *K. M. Tamimi, F. A. Fattah and M. A. Al-Hamdany.* Shoot apex fasciation in *Sesamum indicum* associated with mycoplasma-like organisms

305 Book reviews

311 Corrigendum

VOLUME 38 NUMBER 3

Review

313 *G. D. Lyon.* The biochemical basis of resistance of potatoes to soft rot *Erwinia* spp.—a review

340 *M. O'Dell, M. S. Wolfe, R. B. Flavell, C. G. Simpson and R. W. Summers.* Molecular variation in populations of *Erysiphe graminis* on barley, oats and rye

352 *S. B. Mohan.* Cross-reactivity of antiserum raised against *Phytophthora fragariae* with other *Phytophthora* species and its evaluation of a genus-detecting antiserum

364 *J. D. Taylor, J. R. Bevan, I. R. Crute and S. L. Reader.* Genetic relationship between races of *Pseudomonas syringae* pv. *pisi* and cultivars of *Pisum sativum*

376 *T. Katan, E. Hadar and J. Katan.* Vegetative compatibility of *Fusarium oxysporum* f.sp. *dianthi* from carnation in Israel

382 *Y. Cohen and Y. Samoucha.* Selection for metalaxyl resistance in potato crops infected with *Phytophthora infestans*: effects of fungicides and initial frequency of resistant sporangia

391 *E. Drijfhout and J. H. C. Davis.* Selection of a new set of homogeneously reacting bean (*Phaseolus vulgaris*) differentials to differentiate races of *Colletotrichum lindemuthianum*

397 *P. R. Brassett and C. A. Gilligan.* Fitting of simple models for field disease progress data for the take-all fungus

408 *D. R. Eagling, P. J. Cunningham, R. J. Sward and G. M. Halloran.* The incidence of barley yellow dwarf virus isolates in perennial ryegrass (*Lolium perenne*) in south-western Victoria

414 *C. H. Huang, S. H. Hseu and J. H. Tsai.* Purification, serology and properties of five zucchini yellow mosaic virus isolates

421 *L. J. Penrose, W. Koffmann and H. I. Ridings.* Factors affecting the efficacy of post-harvest fungicide applications for the control of blue mould (*Penicillium expansum*) in stored apples

427 *R. E. Beever, E. P. Laracy and H. A. Pak.* Strains of *Botrytis cinerea* resistant to dicarboximide and benzimidazole fungicides in New Zealand vineyards

New or unusual records

438 *N. I. S. Liyanage. Phytophthora citricola* on rubber in Sri Lanka

440 *R. I. Davis, H. Ogle, A. C. Hayward, J. S. Meekin, J. A. G. Irwin and J. Kumar.* Aetiology of stem canker diseases of pigeonpea in Fiji

443 *C. J. Perkins and R. G. T. Hicks.* Some properties of alfalfa mosaic virus isolated from *Buddleia davidii* in the UK

447 *J. H. Buxton. Tyrophagus longior* (Gervais) (Acarina; Acaridae) as a pest of ornamentals grown under protection

449 Book reviews

458 Corrigenda

VOLUME 38 NUMBER 4

Review

459 *D. J. Yarham and N. J. Giltrap.* Crop diseases in a changing agriculture: arable crops in the UK—a review

478 *M. J. Hocart, J. A. Lucas and J. F. Peberdy.* Vegetative incompatibility in *Pseudocercosporella herpotrichoides*

484 *N. F. Creighton.* Identification of W-type and R-type isolates of *Pseudocercosporella herpotrichoides*

494 *S. M. Neate.* A comparison of controlled environment and field trials for detection of resistance in cereal cultivars to root rot caused by *Rhizoctonia solani*

502 *R. J. Hillocks and R. Chinodya.* The relationship between *Alternaria* leaf spot and potassium deficiency causing premature defoliation of cotton

509 *D. R. Jones, M. D. Slade and K. A. Birks.* Resistance to organomercury in *Pyrenophora graminea*

514 *R. T. A. Cook.* Control of *Glomerella cingulata* f.sp. *camelliae* with fungicides

520 *V. Anjaiah, D. V. R. Reddy, S. K. Manohar, R. A. Naidu, Y. L. Nene and A. S. Ratna.* Isolation and characterization of a potyvirus associated with bushy dwarf symptom in chickpea, *Cicer arietinum*, in India

527 *W. Xie, J. F. Antoniw and R. F. White.* Detection of beet cryptic viruses 1 and 2 in a wide range of beet plants using cDNA probes

534 *A. C. Newton.* Measuring the sterol content of barley leaves infected with powdery mildew as a means of assessing partial resistance to *Erysiphe graminis* f.sp. *hordei*

541 *A. M. Al-Musa.* Severe mosaic caused by zucchini yellow mosaic virus in cucurbits from Jordan

547 *C. L. Lennox and F. H. J. Rijkenberg.* Scanning electron microscopy study of infection structure formation of *Puccinia graminis* f.sp. *tritici* in host and non-host cereal species

557 *R. P. Thakur.* Flowering events in relation to smut susceptibility in pearl millet

564 *E. Levy, Z. Eyal, S. Carmely, Y. Kashman and I. Chet.* Suppression of *Septoria tritici* and *Puccinia recondita* of wheat by an antibiotic-producing fluorescent pseudomonad

571 *S. T. Semisi and S. F. L. Ball.* Infection of the pearl millet (*Pennisetum americanum*) inflorescence by the downy mildew fungus (*Sclerospora graminicola*)

577 *P. Caciagli, G. Boccardo and O. Lovisolo.* Parietaria mottle virus, a possible new ilarvirus from *Parietaria officinalis* (Urticaceae)

585 *J. G. Harrison and R. Lowe.* Effects of humidity and air speed on sporulation of *Phytophthora infestans* on potato leaves

592 *N. I. S. Liyanage and B. E. J. Wheeler.* Comparative morphology of *Phytophthora* species on rubber

New or unusual records

598 *T. Hunter.* Occurrence of *Tapesia yallundae*, teleomorph of *Pseudocercosporella herpotrichoides*, on unharvested wheat culms in England

604 *G. Hall.* Unusual or interesting records of plant pathogenic Oomycetes

612 *D. J. Yarham and B. M. McKeown.* Airborne spores of *Tilletia caries* as a source of wheat bunt through soil contamination

615 *C. Persad and M. Fortune.* A new disease of sorrel (*Hibiscus sabdariffa* var. *sabdariffa*) caused by *Coniella musaiaensis* var. *hibisci* from Trinidad and Tobago

618 *A. D. Avgelis.* Watermelon necrosis caused by a strain of melon necrotic spot virus

623 *R. A. Naidu, S. K. Manohar, D. V. R. Reddy and A. S. Reddy.* A plant rhabdovirus associated with peanut veinal chlorosis disease in India

627 *N. I. S. Liyanage and B. E. J. Wheeler. Phytophthora katsurae* from cocoa

630 Book reviews
